

YOU: Love math, enjoy young people, want to make a difference in the world

US: Seeking people who love math and want to teach high school mathematics

A MATCH?

To learn about the Math for America Fellowship, log on to www.mathforamerica.org/sandiego

The five-year fellowship begins when you enter the credential program at one of the three partner universities, and continues through your first years of teaching. Participants receive tuition for their credential coursework, a \$15,000 per year stipend (in addition to salary), customized professional development, a mentor teacher, and access to a professional community of mathematicians and math teachers.
